ABSTRACT
This event is designed to provide guidance to student participants of SIGMETRICS conference in pursuing their career after their graduate degrees. Gauri Joshi and Kenneth Taylor will give insights into the career opportunities at IBM and Capital One. It is followed by a panel discussion on pursuing careers in academia and on the role of SIGMETRICS in fostering successful career developments for the young researchers in the community.

SPEAKERS
Gauri Joshi (IBM T. J. Watson Research Center, Carnegie Mellon University)
Kenneth Taylor (Capital One)

PANELISTS
Giulia Fanti (Carnegie Mellon University)
Anshul Gandhi (Stony Brook University)
Vishal Misra (Columbia University)
Vijay G. Subramanian (University of Michigan)

We encourage all students to participate in the event. Following presentations on career opportunities at IBM and Capital One, diverse panelists will provide their view on how to navigate the academic career successfully and take questions from the audience. A reception is followed to encourage lively discussions among the participants.
